master s thesis from the year 2014 in the subject business economics review of business studies grade 79 tshwane university of technology language english abstract this study investigates the effect of practical entrepreneurship education through enactus entrepreneurial projects despite government initiatives such as the national youth development agency nyda and small enterprise development agency seda aimed at improving entrepreneurship in south africa sa two phenomena are characteristic 1 the country is among the least entrepreneurial nations 2 unemployed graduates lack of interest in entrepreneurship exacerbates high unemployment rates consequently universities are incorporating practical

entrepreneurship education into their curricula enactus south africa as a typical example of university intervention into the problem was studied with regard to its effect on student s entrepreneurship intentions the thinking is that without access to jobs entrepreneurship invariably becomes the alternative research into this phenomenon is still limited and existing literature provides equivocal results the study took the form of quantitative research to enable the researcher to collect data which would answer best the research question in hand the findings of the study suggest that there is a positive relationship between enactus entrepreneurial projects and students entrepreneurship intentions the research design was supportive in constructing the entire framework of the study the study was descriptive in nature as essentially it aimed to determine the effect of the phenomena on enactus students the population drawn on was enactus sa but the sample was taken from the enactus national competition 2013 which meant that only students who were representative per higher education institution were sampled it cannot therefore be assumed that the findings are generalizable to all enactus sa students

when congress endorsed substantial aid to schools in 1965 the idea that the federal government had any responsibility for public education was controversial twenty years later not only had that controversy dissipated washington s role in education had dramatically expanded gareth davies explores how both conservatives and liberals came to embrace the once daring idea of an active federal role in elementary and secondary education and uses that case to probe the persistence and growth of big government during a supposedly antigovernment era by focusing on institutional changes in government that accompanied the civil rights revolution davies shows how initially fragile programs put down roots built a constituency and became entrenched he explains why the federal role in schools continued to expand in the post lbj years as the reform impulse became increasingly detached from electoral politics centering instead on the courts and the federal bureaucracy meanwhile southern resistance to school desegregation had discredited the states rights argument making it easier for conservatives as well as liberals to seek federal solutions to social problems although lbj s landmark elementary and secondary education act deferred to local control the legislation of the nixon ford years issued directives that posed greater challenges to traditional federalism than johnson s grand ideals as davies shows the new political climate saw the achievement of such breakthroughs as mandated bilingual education school finance reform and the education for all handicapped children act measures that before the seventies would have been considered unthinkable by liberals as well as conservatives and when ronald reagan promised to abolish the department of education conservatives worked with liberals to derail his agenda davies surprising study shows that the distancing of american conservatism from its anti statist traditions helped pave the way for today s big government conservatism which enabled a republican dominated congress to pass no child left behind by revealing the endurance of great society values during a period of republican
