an adaptation of mcgraw hill australia s *financial accounting text* *australian financial accounting* by craig deegan authored by anne marie ward of ulster university it communicates the detail necessary to understand challenge and critically evaluate financial reporting

this edition has been significantly revised in almost every respect and expanded to around double the size of the first edition it has a practical focus and provides comprehensive coverage of the subject

seminar paper from the year 2003 in the subject business economics accounting and taxes grade 2 0 b helmut schmidt university university of the federal armed forces hamburg institute for corporate accounting course controlling 27 entries in the bibliography language english abstract the topic of the paper is the the

development of the accounting standards of the Australian Accounting Standard Board after the end of the G4 1. I want to summarise the recent standardisation progress both internationally and in the view of Australia and have a closer look on the Australian accounting environment. What was the G4 1 and why did it disband? What was the Australian reaction on the end of the G4 1? What will the future of international and Australian accounting look like? I have chosen this topic because I am currently staying at the Australian Defence Force Academy and studying at the University of New South Wales. Australia has been one of the major standard setters in the world and has had a deal of influence on international accounting standards. Although it is a relatively small economy in the world, hardly a day passes without problems of financial reporting appearing in the international press. Recent events like the scandals of Enron, WorldCom and Xerox show the need for reasonable accounting. International accounting is an actual problem to be solved and a future chance for all kinds of businesses after the introduction of IAS. I will first present the accounting environment of Australia and its institutions, then I will discuss the development of international accounting and the G4 1 group and its dissolution. I will have a look on the harmonisation project and what happens in Australia after the end of the G4 1. At the end, I will illustrate the relation between IAS and AAS and give a conclusion. For my work, I used several recent books on Australian financial accounting that are used by institutions across Australia, various journals on accounting
