during the first few days of the Spanish Civil War women played an integral role in the spontaneous uprising that prevented the immediate success of the nationalist coup around one thousand of these women went on to join the militias who fought at the front women also played an important role in the defense of cities with another several thousand forming sections of the armed rearguard indeed women's participation in the anti fascist resistance constituted one of the greatest

mass political mobilizations of women in Spain's history. *Milicianas* provides a comprehensive picture of what life was like for the women who fought during the first year of the civil war, focusing on how the women themselves viewed this experience. It demonstrates that the significance of the *miliciana* phenomenon lies in the fact that these women took up arms in relatively large numbers, were self-motivated, participated in combat equally with their male comrades, and played an extensive and sophisticated military role. By late 1936, attitudes towards women in combat began to change drastically, and by March 1937, the majority of *milicianas* had been removed from their combat positions. Though there existed a consensus around this issue among the male leadership of both the republican government and left-wing political groups, female combatants viewed this turn of events differently. The majority of the *milicianas* had deep reservations about their recall from the front and saw it as a retreat from the gains women had made during the war and revolution. Indeed, while the political leadership within the republic presented numerous arguments for why it was necessary to remove women from combat, this book argues that the reason it was initially considered acceptable for women to fight and then seen as undesirable eight months later was connected to the course of the social revolution.

Durante veinte años, el Congreso de Novela y Cine Negro de la Universidad de Salamanca reunió a estudiosos de las diferentes vertientes artísticas del género negro procedentes de todo el mundo. Frente al habitual desprecio con que las estructuras académicas han acostumbrado a tratar a las narrativas populares, el congreso logró convertirse en un evento pionero y referencial único en el sistema universitario español y prácticamente internacional. En incrementar de forma sistemática el conocimiento sobre el género, en 2024 el congreso de novela y cine negro llegó a su fin. Lejos de dejarse invadir por la nostalgia, la última edición trató al igual que las precedentes de convertirse en un acto lúdico que combinara el placer de difundir conocimiento propio de la rigurosa investigación universitaria con la alegría de poder unir un año más a la pequeña familia de estudiosos que año tras año y siempre con nuevas incorporaciones se reunían en Salamanca. Por eso, este libro es un último baile que viene a compilar las aportaciones de investigadores nacionales e internacionales sobre diversos temas del género negro: literatura española, literatura universal, neopolicial, cine español, cine universal, cómic, series de televisión, nuevos medios y asuntos teóricos. Al tiempo que trata de evocar el carácter festivo de un congreso que fue algo más, mucho más que un mero evento científico.
